# ROCK ALPINE

The Rock Alpine Division is rather unique because most of our plants are consignment. We have several great vendors who specialize in this genre. They bring only what looks good, so we don't know the exact plants that will be part of our sale. *This list includes potential plants.* We always have a great selection, it's just impossible to know for sure every plant that will be available. Our vendors, along with volunteers who work in our own Rock Alpine garden, will be ready to answer your questions throughout the sale.

## EXPANDING THIS YEAR – THE TROUGH SHOP

A section devoted entirely to troughs and the plants that do well in them (bold on list). **This year, we will be staffed to customize troughs.** We'll help you select the trough and plants, plant it for you, and then help you through check out.
