FOLLOW THE RAINBOW

In honor of Pride month, we invite you to consider the colors of the rainbow flag. Inspired by “Over the Rainbow” by Judy Garland, the original LGBTQ+ Pride flag was created in 1978 by artist and veteran Gilbert Baker, at the request of Harvey Milk. Each color of the flag was given its own special meaning (listed below), forever symbolizing the pride, diversity and vibrancy of the LGBTQ+ community.

Explore our full spectrum of plants at Chatfield Farms, and take a moment to reflect and celebrate the meanings behind the colors of the Pride flag. During your visit or through our online Gardens Navigator, find the plants below to follow the colors of the rainbow shining throughout the Gardens.

**LIFE**  
**HEALING**
